

THE GARDENIAN

garden is where we belong

ABOUT THE GARDENIAN

Since our founding in 2021, The Gardenian for Gardens Services L.L.C. has quickly built a reputation as a trusted and professional landscaping partner in the UAE. With over 200 successfully completed projects across residential, commercial, hospitality, and public sectors, we consistently deliver high-quality, innovative, and sustainable landscaping solutions.

We provide end-to-end services, from design and installation to ongoing maintenance, combining technical expertise with careful attention to detail. Our goal is to create outdoor and indoor environments that are both beautiful and functional, enhancing the value and experience of every space we work on.

Rooted in a deep understanding of the UAE's climate and cultural context, The Gardenian is committed to promoting sustainability, biodiversity, and resource conservation in all our projects. We build lasting relationships through integrity, reliability, and a strong focus on client satisfaction.

OUR VALUE

Vision

To be a global leader in landscaping services, recognized for pioneering innovation, exceptional quality, and **sustainable** solutions that redefine outdoor spaces, enhance communities, and set new industry benchmarks worldwide

Mission

To create and maintain beautiful, functional, and sustainable outdoor spaces. We align our landscaping solutions with **ESG** standards and support **CSR** initiatives, enhancing the environment and enriching the communities we serve.

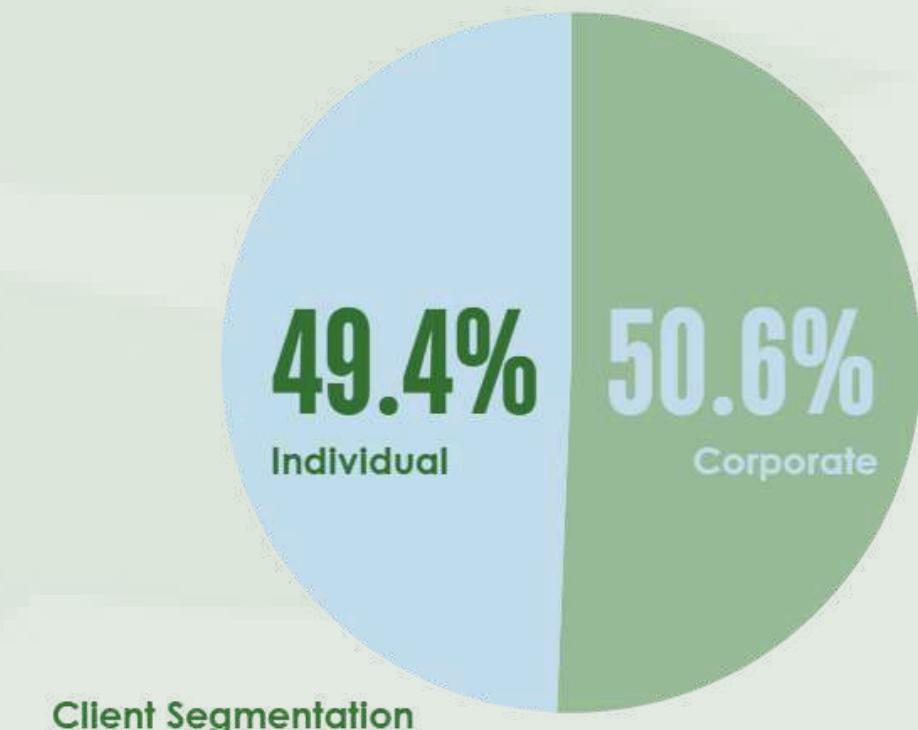

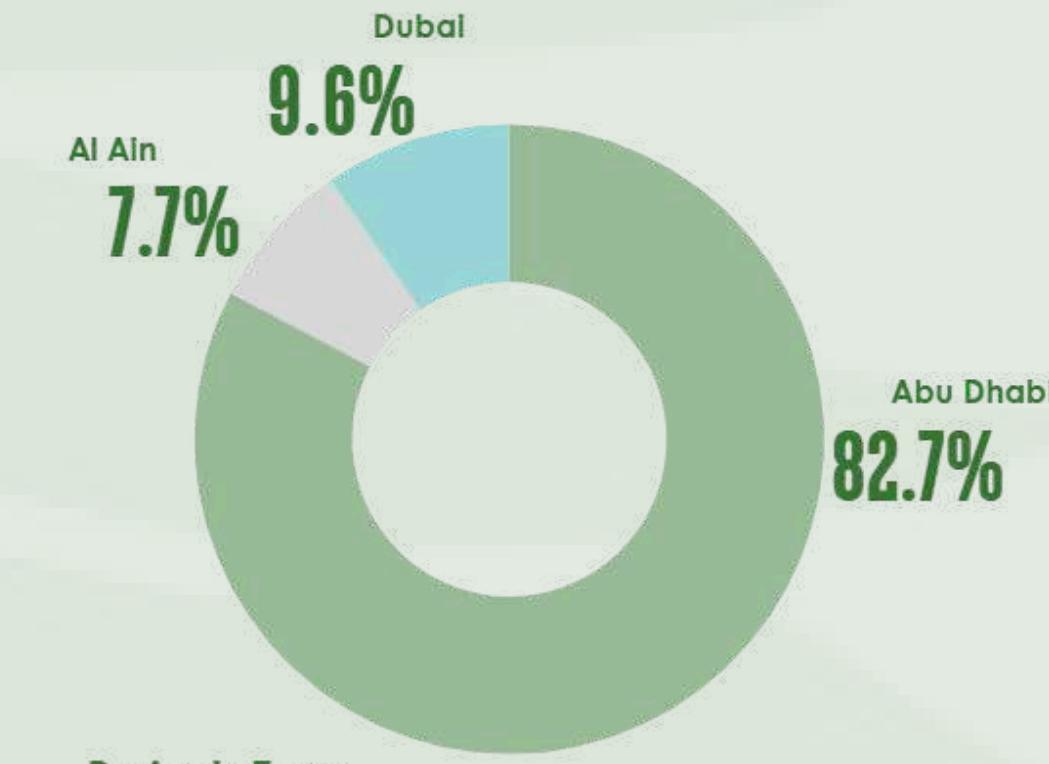

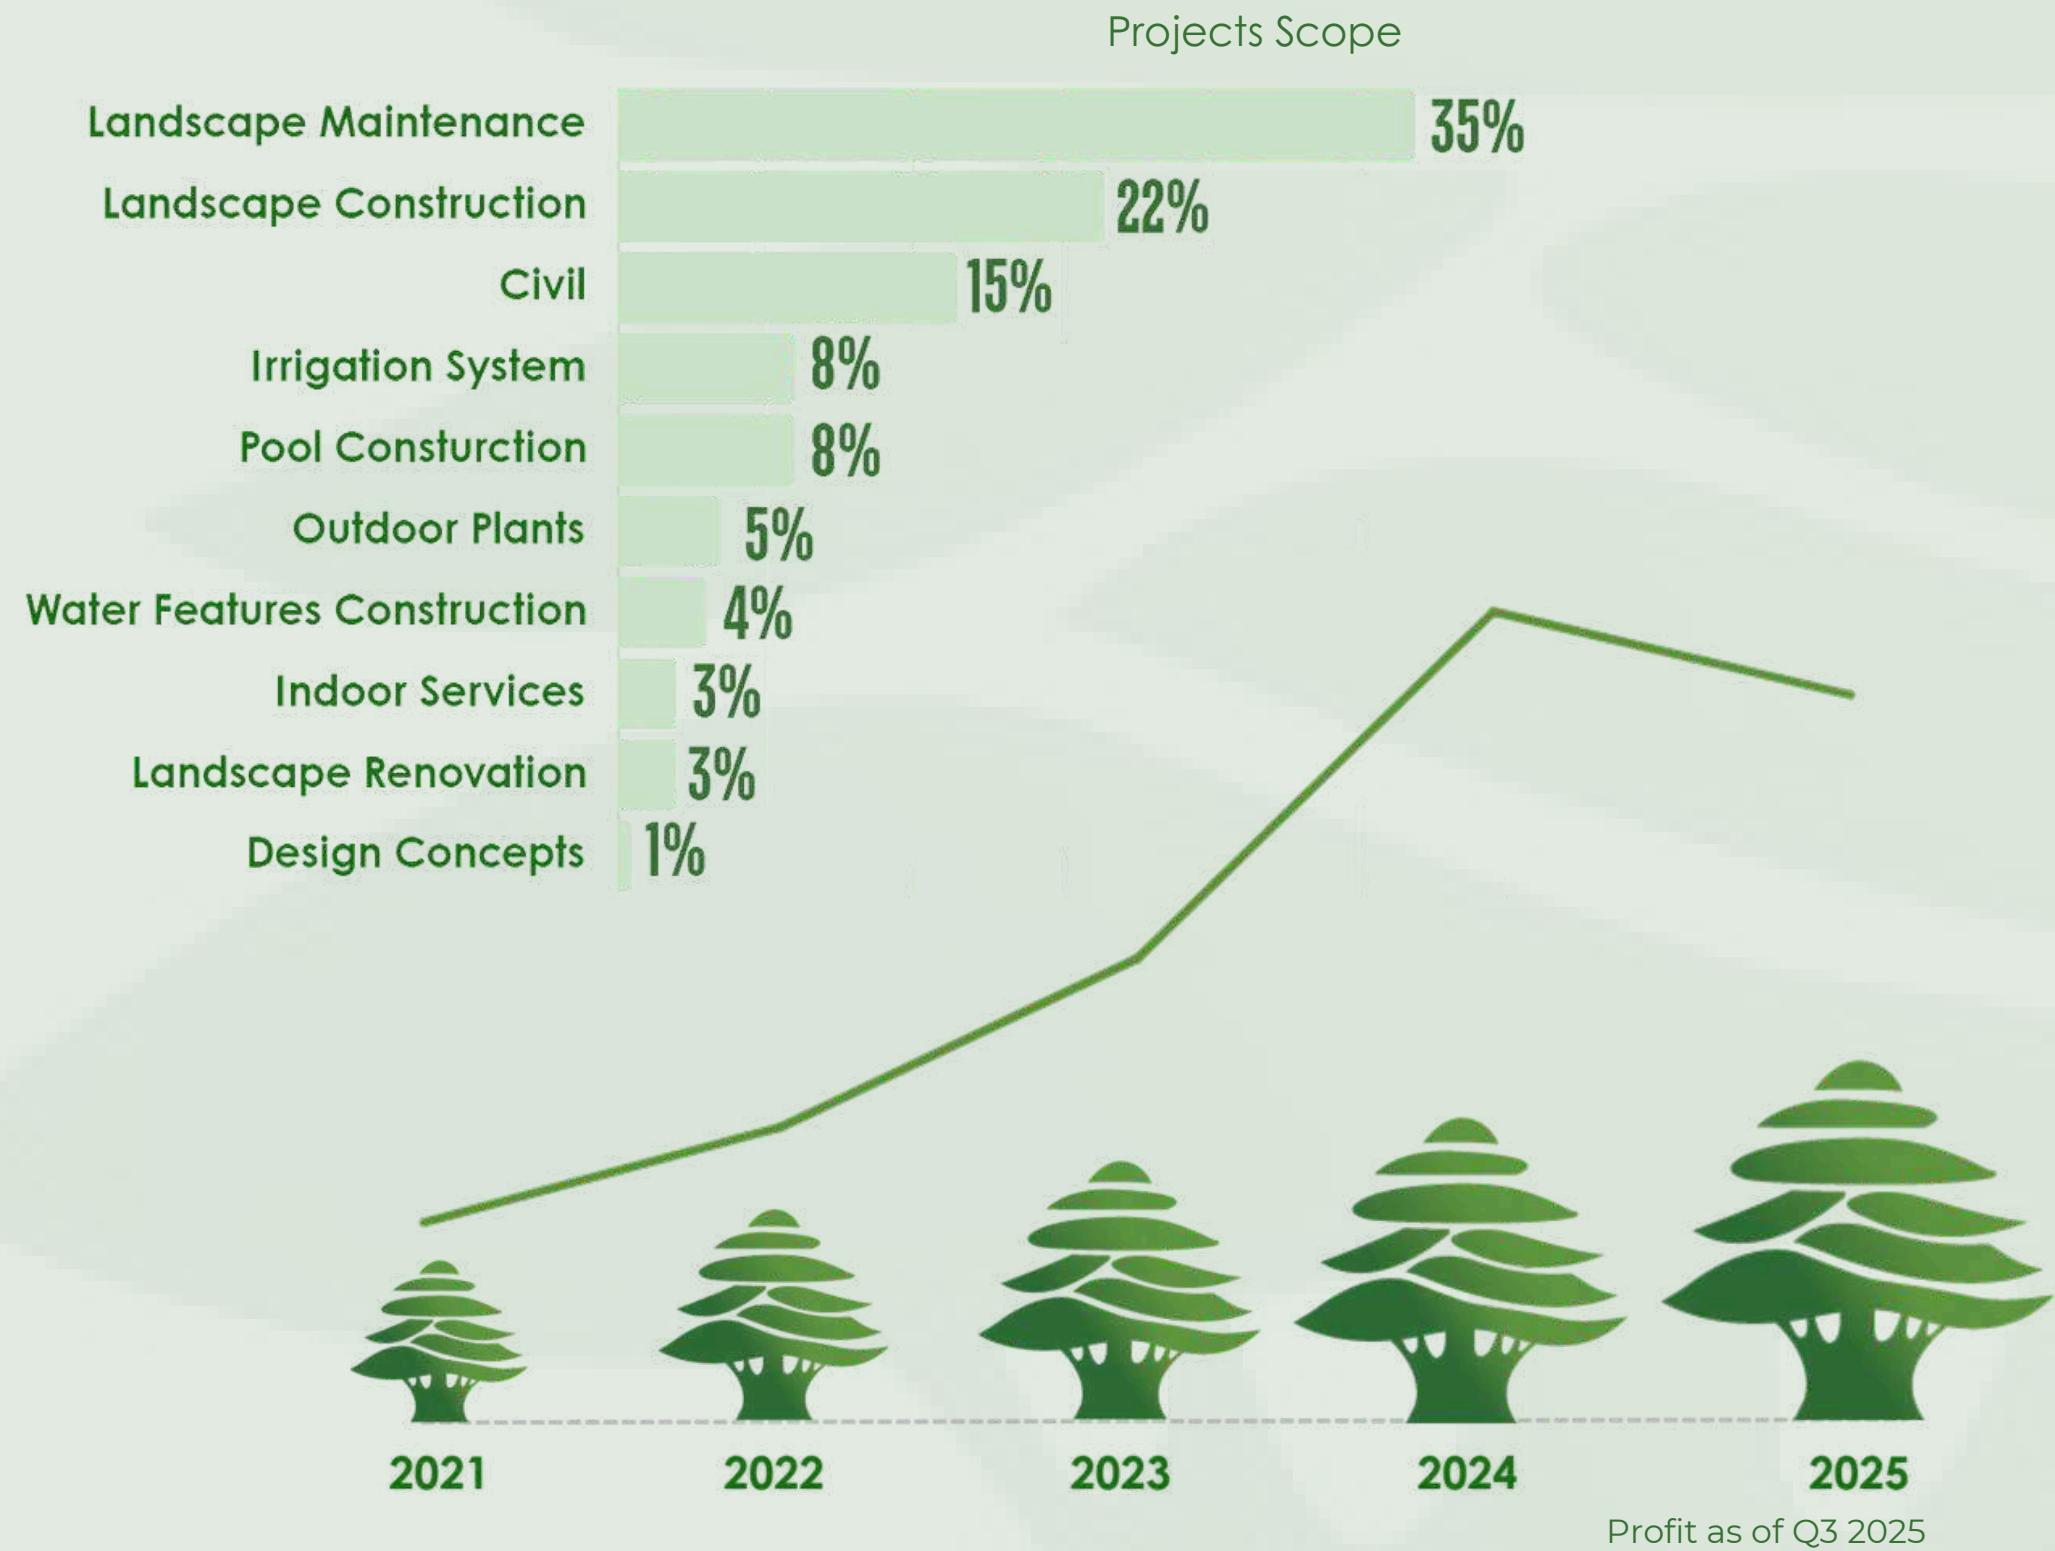

Strategy

To leverage advanced technology, precision management, and **sustainable** practices to ensure the efficient execution of complex landscape designs.

The Gardenian Dashboard

SUSTAINABLE GOALS

At Gardenian, we integrate **sustainability** into every project through responsible, forward-thinking practices. From resource-efficient systems to environmentally conscious practices, we aim to create greener, healthier spaces that benefit both people and the planet.

Our sustainability efforts include:

- Urban agriculture through edible gardens and community planting
- Well-being-focused designs that support relaxation and mental health
- Smart irrigation systems to reduce water waste
- **Solar-powered** lighting and tools for clean energy use
- Climate-resilient and native plant selection to promote biodiversity
- Natural soil management to support long-term ecological balance
- **Eco-friendly** landscaping that enhances cities and communities **sustainably**

Through every garden we create and every landscape we maintain, Gardenian is dedicated to shaping a greener, healthier, and more **sustainable** future.

Design Concepts

The Gardenian provides comprehensive landscape design services, available as full project packages or standalone services, tailored to meet the individual requirements of each client.

Our landscape design services include:

- Creation of detailed **2D** layout drawings for clear spatial planning
- High-quality **3D** visualizations to help clients preview the final design
- Development of **master plans** aligned with client vision and site requirements
- Preparation detailed Bills of Quantities (**BOQ**) to realize your outdoor vision that clearly display elements such as plants and lawns, siting pathways, water features, and other hardscape components.

Landscape Construction

Our expert construction services bring landscape designs to life with precision and quality. We specialize in building **pergolas, outdoor seating areas, sunrooms, swimming pools, and jacuzzis**, handling every detail with care.

Our team seamlessly integrates natural and artificial elements to create durable, functional, and visually striking outdoor environments.

Landscape Renovation

At The Gardenian, we offer complete renovations that transform spaces with modern designs and renewed functionality.

Our team works swiftly to redesign and upgrade outdoor areas, creating stunning transformations in minimal time.

Whether refreshing plantings or reconstructing hardscape features, we turn old landscapes into entirely new spaces

Landscaping Maintenance

Our landscape maintenance services are designed to provide comprehensive, professional care for all aspects of your outdoor environment. To suit your needs, we provide **flexible maintenance packages**.

Whether you seek a one-time service or continuous maintenance, we provide **daily, weekly, monthly, and annual** options.

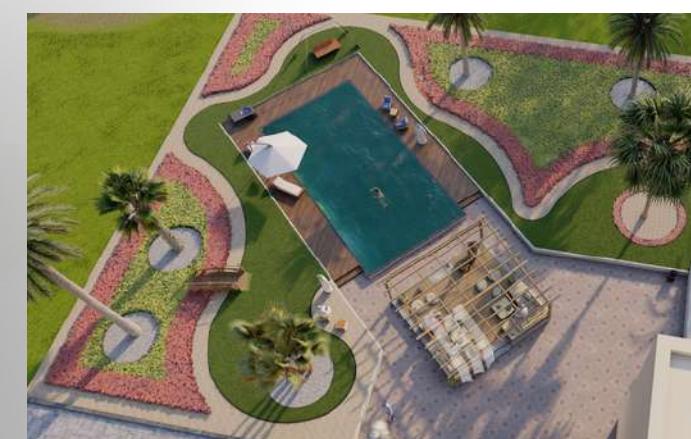

Pools Construction

We specialize in the construction of various pool designs, such as **overflow, infinity, and indoor pools**, while integrating **skimmers** and other necessary **filtration** components.

We give priority to safety by incorporating **non-slip surfaces** and secure fencing.

For maintenance, we provide **regular cleaning, chemical balance maintenance, equipment inspection, and water quality management** to ensure the cleanliness and safety of your pool.

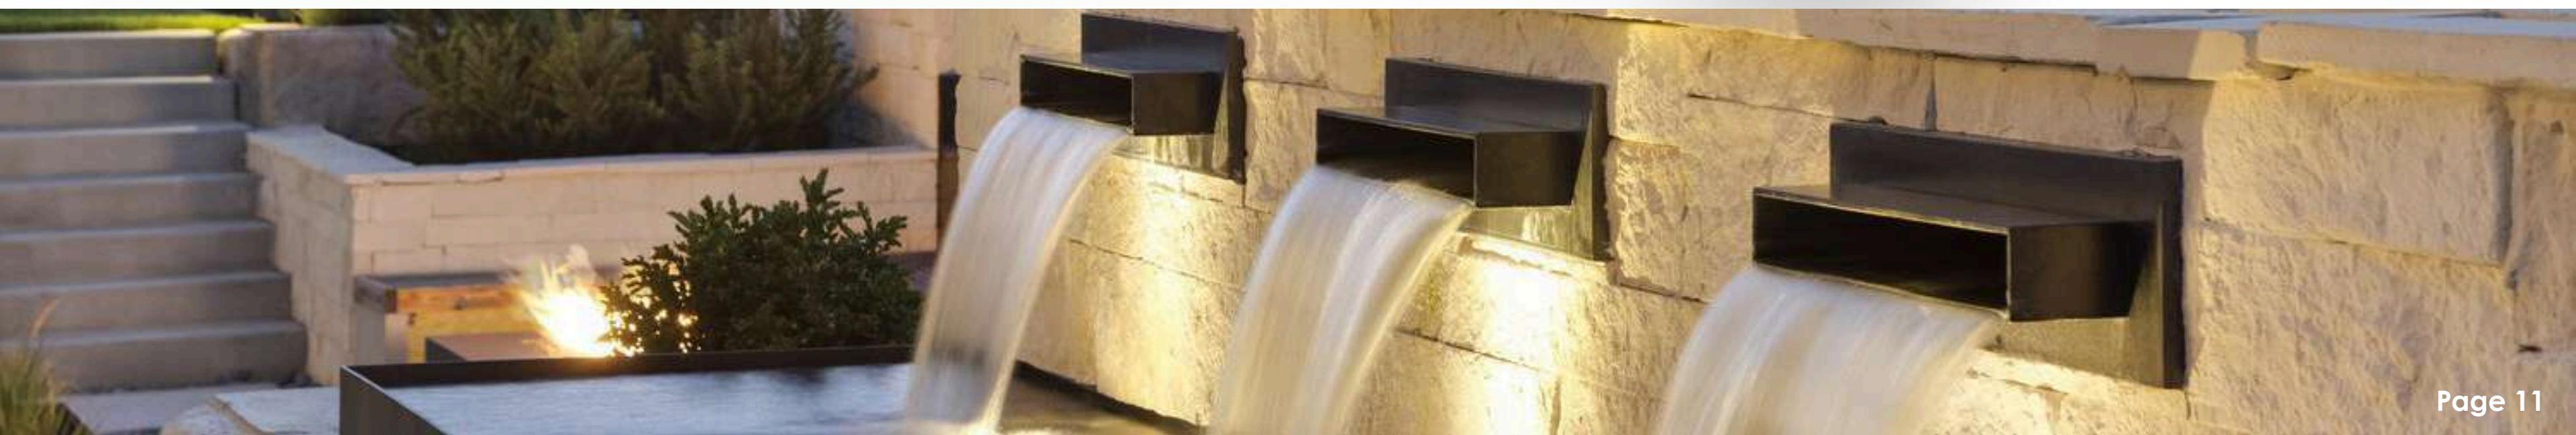

Water Features Construction

Our Water Feature services encompass the expert design and installation of **exquisite fountains, waterfalls, and lakes**, which serve to enrich the beauty and serenity of any outdoor environment.

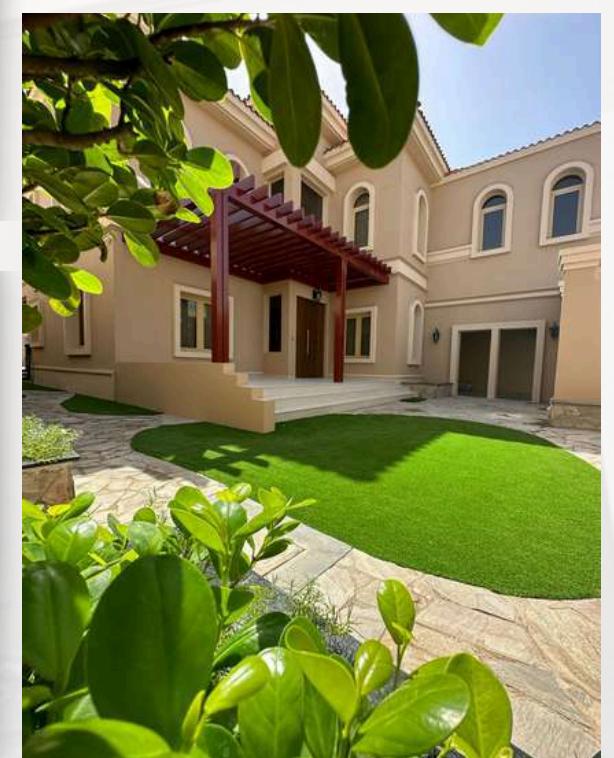

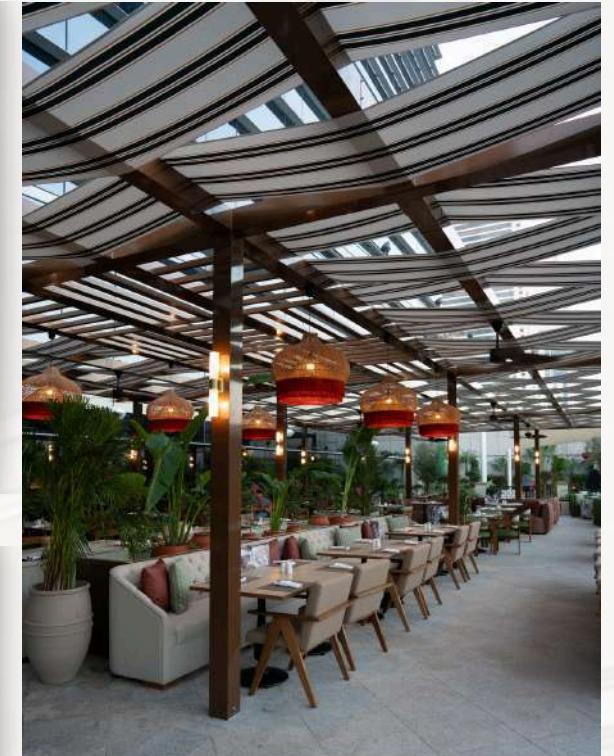

Whether the objective is to establish a tranquil focal point or incorporate a natural water element, we offer customized solutions tailored to your specific space.

Sunroom & Pergola Construction

We specialize in designing and building **sunrooms** that provide an enclosed, light-filled area, allowing you to enjoy the outdoors year-round while being protected from the elements. Additionally, our **pergola** construction adds shaded, open-air structures that blend seamlessly into your landscape, offering a stylish and relaxing outdoor retreat.

Outdoor Plants

Our Outdoor Planting Service creates vibrant landscapes with **custom plant setups, green walls, trees, shrubs, and artificial turf**.

We provide comprehensive support for **lush, resilient outdoor** spaces from installation to upkeep, including **irrigation setup, fertilization, and pest control**.

Indoor Plants

Our Indoor Planting Service enhances interiors with expertly chosen **plants, green walls**, and custom arrangements, including low maintenance artificial options.

We ensure ideal positioning, setup, and ongoing care for a healthy, stylish indoor environment.

Our Indoor Planting Services Include:

- Live plant selection and installation
- Green walls and vertical gardens
- Artificial plant options for low-maintenance environments
- Professional placement and design integration
- Weekly and monthly maintenance for plant health and appearance

Irrigation System

Our Irrigation System Service delivers smart, **sustainable** solutions to keep landscapes healthy and thriving.

We design and install automated irrigation systems using **eco-friendly** materials and **water-saving technologies** to ensure efficient distribution with minimal waste.

By incorporating **sustainable** resources and automated controls, our systems promote responsible water use while offering convenience and reliability.

Lighting System

Our Lighting System Service offers professional installation of high-quality, energy efficient outdoor lighting designed to enhance both the beauty and safety of your landscape.

We prioritize **sustainable** solutions by integrating **solar-powered systems** and **eco-friendly** materials, ensuring long-term efficiency and minimal environmental impact.

We specialize in a variety of lighting options,

- **Spike lights**
- **Ground lights**
- **Pathway lights**
- **Bollard lights**

Each meticulously designed to accentuate focal points and offer functional illumination.

Outdoor Furniture

We offer a refined collection of premium outdoor furniture designed to transform exterior spaces into stylish, comfortable, and functional environments. Whether you're designing **a private garden, a luxury terrace, or a welcoming hospitality space**, our selections are crafted to elevate the outdoor living experience. Our offering includes:

- **Seating Sets**
- **Dining Tables & Chairs**
- **Outdoor Sofas**
- **Loungers & Daybeds**
- **Sunken Seating Solutions**
- **Material & Style Variety**

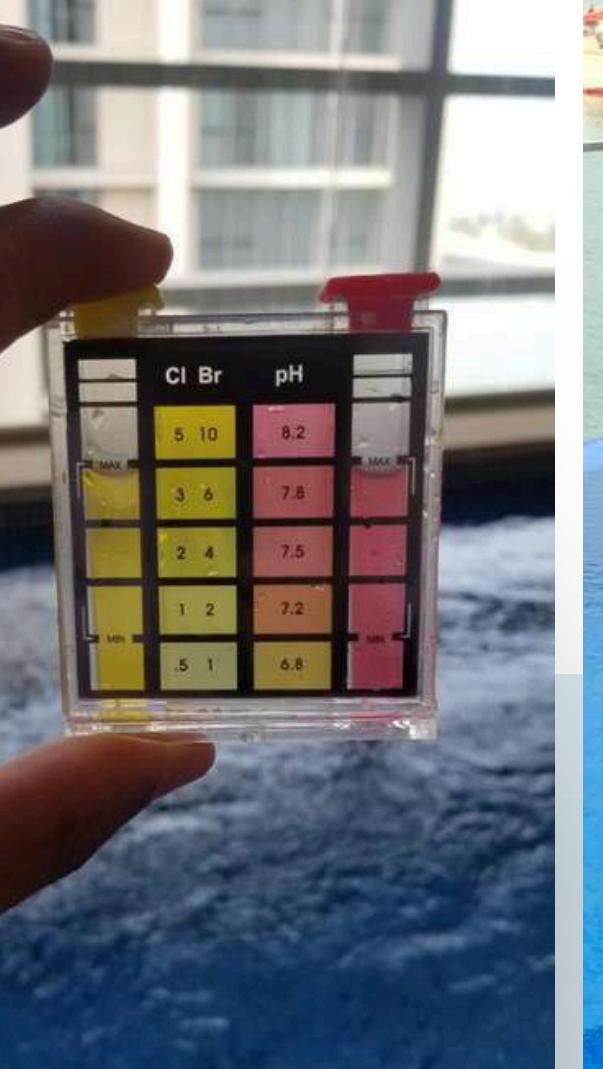

Every piece we provide is selected not only for its durability but also for its ability to elevate outdoor spaces with timeless design and exceptional comfort.

Water Quality Testing

Our Water Quality Testing Service guarantees the health and safety of your water systems through comprehensive analysis and monitoring.

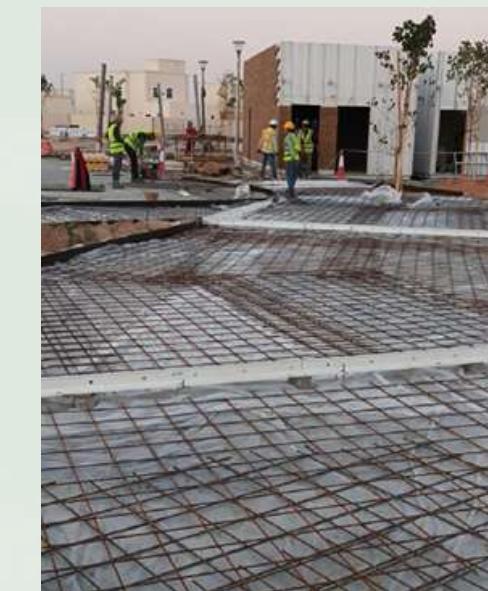

- **Ensure water system health and safety** through comprehensive testing and monitoring.
- **Analyze key parameters** such as pH levels, contaminants, and overall water purity.
- **Support optimal conditions** for irrigation systems, pools, fountains, and other water features.
- **Protect the longevity** of your landscape investments and water elements.
- **Promote sustainability and well-being** by maintaining clean and safe water sources.
